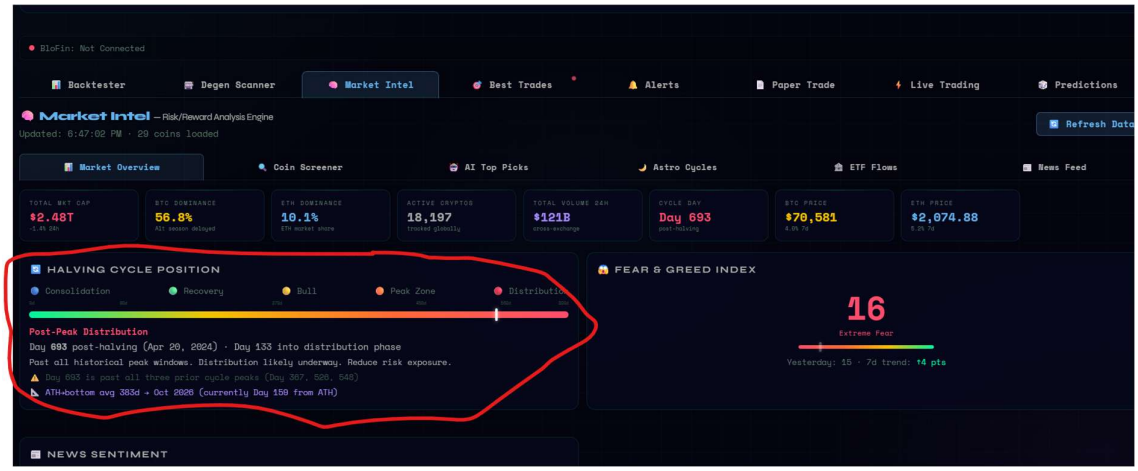
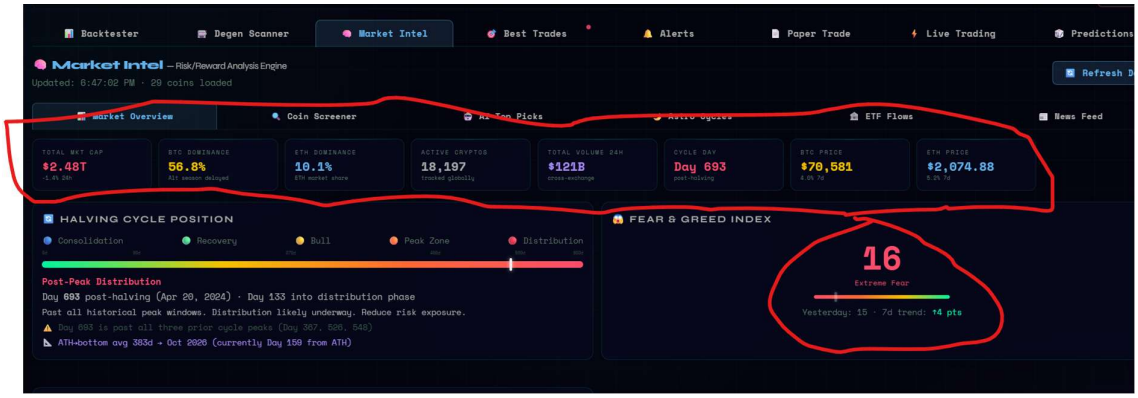
Ideas and updates for Market Intel tab

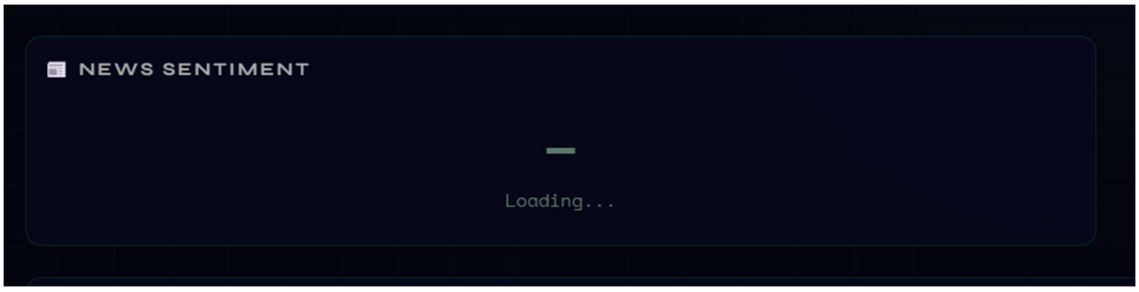
1. This should match the market cycle dashboard – or what ese is it looking at that I am missing?



2. Please have your agents make sure all of this info is live and accurate

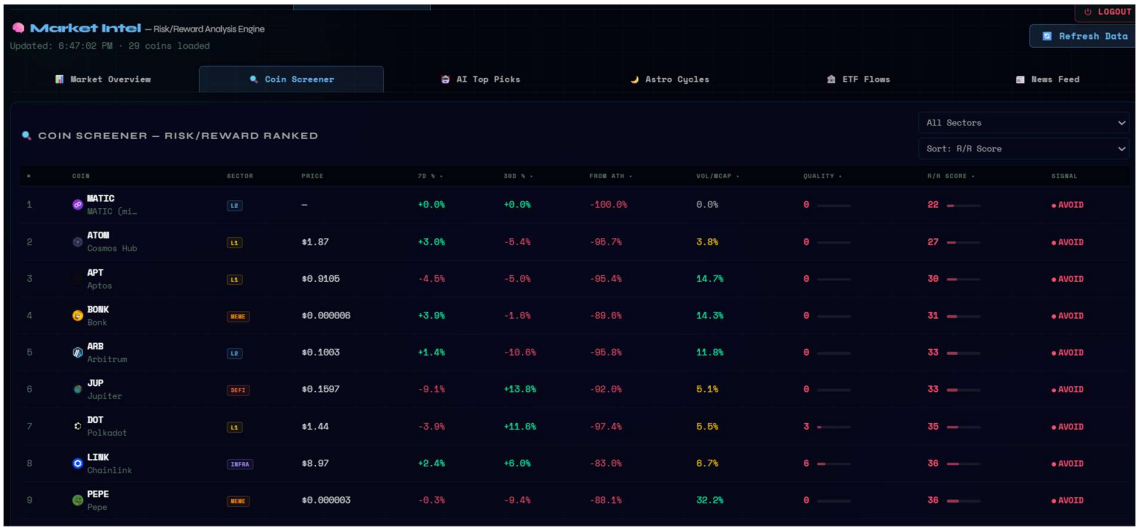


3. Nothing loading

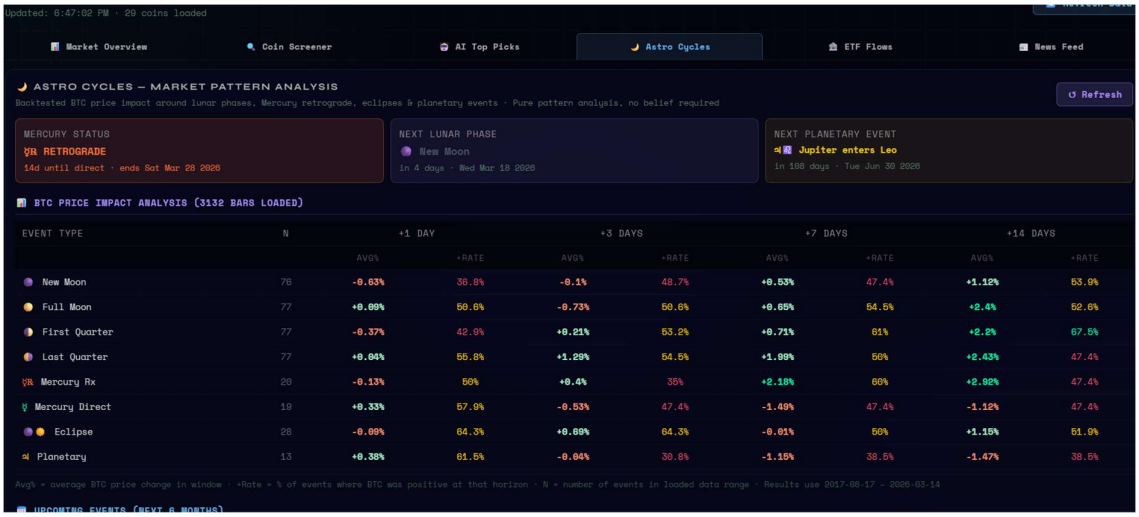


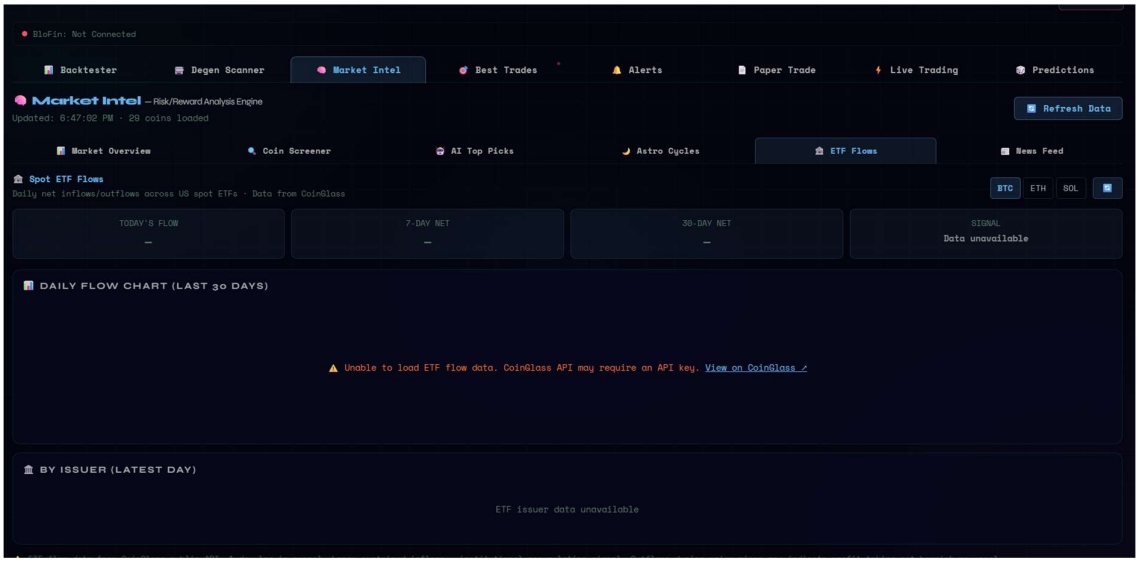
4. Please check everything is accurate and working here. ETF flows shows no data so please fix and recheck everything.

5. How is this section being calculated? Have your agents look into it and how it can be improved.



6. Please have your agents check this data is accurate and research how we could use it better.





7. What other platform can we pull this in for free?
